#### **ABOUT US**

Can Tho Ecolodge is the newest member of Asia Ecolodge, one of Vietnam's leading operators in the realms of eco-accommodation. We started our progressive concept in 2014 with Mai Chau Ecolodge, our first eco-friendly resort nestled in the luxuriant valleys of northern Vietnam. Now, our experience and expertise has led us to Can Tho, the nature-flanked capital of the sprawling Mekong Delta, where our newest green vision finds its home.

#### **OUR MISSION**

At Asia Ecolodge, we believe that the future of travel is clean, green and responsible. Our mission is to forge a symbiotic relationship between visitors, locals, and nature, where each can benefit the other in profoundly meaningful ways. We commit to four key principles in pursuit of this: closeness to nature, environmental protection, cultural preservation, and responsible tourism. Like the waterways of the Mekong Delta, each concept is distinctly interwoven and part of a greater whole.

#### **OUR HOME**

Can Tho and the Mekong Delta provide an idyllic remedy to Vietnam's rapid modernisation. Locals here live by the beat of the Mekong River, which courses and splits across 12 provinces in the deep south of the country. Vibrant jungles have fanned from the banks of countless waterways, evidencing the rich alluvial soil deposited by the Mekong on its final flow into the ocean. People, too, have profited from this fertile ground. Some of the rice paddies, fruit orchards, and villages here have grown from pre-historic beginnings when the Mekong Delta's impossibly lush landscape proved irresistible to Vietnam's first settlers. Over its long history, Can Tho has sprouted from humble hamlet to thriving city, yet its nature-blessed outskirts, home to Can Tho Ecolodge, still abide by the languid sway of the palm tree.

Around Can Tho

- Floating Markets
- Rice Paddies
- Fruit Orchards

## ACCOMMODATION

The 48 rooms of Can Tho Ecolodge are housed across 12 gorgeous cottages comprising a natural symphony of wood, coconut shell, red brick, stone, and thatched palm leaf, which are all products...

# JUNIOR DELUXE ROOMS

38m2 | Double Beds

# **DELUXE ROOMS**

56m2 | Double/ Twin Beds | Connecting Room Available

## **FOOD AND RESTAURANT**

Our 4-star restaurant captures the long culinary traditions of the fruitful Mekong Delta. Rice and seafood are staples of the kitchen in Vietnam's deep south and are farmed across 40,000km2 of paddies and rivers.

Guests can sit down to an à la carte or set menu service including distinguished favourites such as banana flower salad, grilled tiger shrimp and beef with pepper sauce. Every one of our dishes has established cultural grounding in the Mekong Delta and is served in a gorgeous red brick restaurant overlooking the swimming pool.

#### **POOL AND BAR**

Shimmering under the light of the Mekong sun, the beautiful 320m2 swimming pool is the luxurious heart of Can Tho Ecolodge. It is the embodiment of our homeland's laidback flow and an excellent hub for family-friendly activity at the lodge, one flanked by sun loungers and shade-providing palm trees. The pool also features a separate area for kids and another for Jacuzziassisted melting into a tropical paradise.

Beside the swimming pool stands the curved bar, where visitors can survey the scene from atop wooden bar stools.

Our drinks menu is comprised of a great variety of domestic and international drinks, all served poolside for your utmost convenience.

# SPA

Massage therapy has a deep-rooted heritage in the Mekong Delta, where long days in the rice fields or on fishing boats historically fuelled the need for some serious relaxation. The tranquil spa occupies a quiet corner of Can Tho Ecolodge, featuring a full menu of bodyeasing treatments after your own day of strenuous trekking or cycling.

Our local-led massage workshops help to confer some of the ancient remedies of the Mekong Delta to those willing to learn them.

## **ECO-TOURS**

The prime location of Can Tho Ecolodge puts the wild nature of the Mekong Delta just beyond our gates. Our tours help unveil the majesty of the region while never straying from our established eco-conscious principles. All tours are minimum-impact and many directly benefit our local community, whether that be through profits for its residents or by helping to keep alive their ancient traditions.

Relaxing on a sampan boat

Shopping at floating markets

Cooking local favourites

Exploring the city of Can Tho

Learning how to massage

Farming in the paddies

Woodcarving with local artisans

## **SPECIAL AND CORPORATE EVENTS**

## Weddings | Anniversaries | Parties

With a background of resplendent architecture and vivid green hues, any special event held at Can Tho Ecolodge is guaranteed to be both incredible and memorable. Our planners will liaison with you to ensure that your wedding, anniversary or party is a resounding success - one full of music, décor and cuisine tailored around you.

## Meetings | Team Building | Corporate Parties

Work is always more effective in paradise and our ecolodge's corporate events serve paradise on a platter. Meet clients, improve co-worker relations or simply let your hair down at the end-of-year party, all within the thick tropics of southern Vietnam and amongst the professional atmosphere of our conference room or restaurant.

#### **NEARBY POINTS OF INTEREST**

Can Tho is located almost perfectly in the geographical centre of the **Mekong Delta**, meaning that we are within easy reach of some of its most gorgeous attractions:

Central Can Tho City (10km) – Central Can Tho offers diversity in wonderful Chinese and Cambodian architecture standing shoulder to shoulder with Vietnamese.

Binh Thuy Ancient House (15km) – This resplendent piece of Vietnamese-French architecture stands as a relic to the style imposed by France during its colonial rule.

## King Lotus Pagoda (35km)

- A Buddhist pagoda with a lotus-filled pond in its grounds. These lotus flowers are enormous and can easily remain afloat under the weight of a human.

# Bang Lang Stork Sanctuary (55km) -

A 1.5-hectare home to tens of thousands of storks, who roost across its jungle canopy on a nightly basis
